

## News from Claudiu and Ada

As many of you know, our co-workers wife, Ada Rosca, was diagnosed with a malignant melanoma in early October 2010.

Ada had two operations on the melanoma but as you will read from the first message here, the prognosis was not good.

But...Praise the Lord, who does indeed work miracles.....as you will see in the second letter from Claudiu, Ada is CLEAR of cancer in any part of her body!

Good News for Romania was able to provide money for all her tests and treatments and so giving Claudiu and Ada encouragement and the vital help they so desperately needed.

THANK YOU to all of those who contributed either financially or in prayer, IT WORKED!

God bless you all.

Dear Kath,

I come with Ada yesterday from hospital and also I had to come back to work. So today i was pretty full to my mouth in work: I missed three days and a lots comming up. Anyway, I have ... well not so good news... Ada had no chance tto get the next op. done. The doctor (by the way, is a profesor, very good in his work) speak, after the consultation, he have no posibility to find out where is the lymphatic node who must be out. The second op. of Ada was too big, a lot of "material" was took out from her back so the test for this node will give a fals result. When I ask him what should we do now he said we must go in Oradea or in Debrecin in Hungary, for a test called PET - CT. The doctor said in Romania is just one machine this type, who is able to perform an image of all nodes from the lymphatic system. After this CT the doctor can say which one, or more can be take out.

The point of worry, is the fact the melanom had 11 mm deep, and the doc said all what is bigger than 4 mm 100% have metastasis. I pray Lord that not be the situation of Ada, no matter what the doc said, but i must confess, i had a tremble in my soul. Also I have now a bigger problem. The test cost me 1000 euro, and i have no those money. You know i have a problem asking for me, but right now I'm on the edge and i don't know where to go. I must go for this test as soon as possible, but... I have no material support.

Please help me as a loan and i promise (i don't know when and how but) I'll pay you back.

Please consider that as a personal request and receive my insurance THIS WILL COME BACK.

Sorry I must go now, I was all day on rush. Thanks for the message and for your prayers, THATS helped Ada a lot, and I belive the result would come will confirm God's hand work.

Love you all XXXXXX Claudiu

Hello Kath,

Finally I'm home with my dear, and I can tell you all I couldn't told on the phone

Ada is good and the official answer was just another confirmation of the miracle God made it to Ada and to me. He listen all the prayers and she is now complet clean. All the areas checked are without any sign of bad cells. From the head to the feet all is ok with normal aspect.

I will send all those result to the doctor from Iasi who perform the op to Ada and to the doctor from Cluj who gave the command for this test.

In rest even I am so tired after three weeks at work with 12 to 16 hours daily, i am almost flying of happiness and joy with my family. Tomorow After the church, i will sitt down and write for all who support us in all possible manner. We are greatfull and we want tomorow to express our thanks and gratitude to the ST Peters Church and to all who were thinking and praying for us. Even we don't know their names, we know it will come a day when we will meet THERE and we will know all one about the other. we will have than time to "chat" and a part of the crown that they will wear will be for what they done for us. Because I will never be able to thank enouhg, I spoke with my Dad and I am sure He will repay and never remain with debts.

We love you all, thank from the bottom of our hearts, and give to all a big and warm hug.

I hope you are not too much upset on my about my delaying to answer, but the lasts week were a nightmare at work. I thank God He is with me there. I hope to get soon news about your comming in Romania.

Please pass our love to all XXXXXXXX

Claudiu and Ada.
